Introduction to Algebra

Parts of an Expression Practice Worksheet

Name the Parts of the following Expressions given below.

1.) **x**

No. of Terms:

Terms:

Variable/s:

Coefficient/s: is the coefficient of

Power/ Index: is the power of

Constant:

2.) **3 + a**

No. of Terms:

Terms:

Variable/s:

Coefficient/s: is the coefficient of

Power/ Index: is the power of

Constant:

3.) **4 − x³**

No. of Terms:

Terms:

Variable/s:

Coefficient/s: is the coefficient of

Power/ Index: is the power of

Constant:

4.) **5x² − 2y³ + 10 1/3**

No. of Terms:

Terms:

Variable/s:

Coefficient/s: is the coefficient of

                    Is the coefficient of

Power/ Index: is the power of

                    Is the power of

Constant:

5.) **7a²b − x⁴y⁻ ³ + π**

No. of Terms:

Terms:

Variable/s:

Coefficient/s: is the coefficient of

                          is the coefficient of

Power/ Index: is the power of

                          is the power of

                          is the power of

                          is the power of

Constant:
