3 Students will talk to: a person

4 Time of meeting: p.m.

5 Children should bring: funny

B. Read the text and decide if the sentences are T (true) or F (false)

COLORS

It is difficult to think of a world without colors, but try for a minute. There aren't no rainbows to look at. You can't choose to wear a color T-shirt. You can't see pink, yellow, purple and red colors in the sky when the sun is going down. What a different and boring world we will have without colors.

Colors are very important for us. For example, red can make some people or animals to think of "danger". Drivers stop their cars when they see a red light and birds don't eat insects with red wings. Different colors can make us love or hate food. Do you like to eat black chips or drink green milk?

People also have different favorite colors. What's yours?

1. Life is nice without colors. ____
2. Rainbows are interesting without colors. ____
3. Red can indicate danger. ____
4. Colors are important for people who drive cars. ____
5. Colors can make us like or hate food. ____

10
