

Berdasarkan carta alir di bawah, lengkapkan cara penanaman secara hiroponik.

The background image shows a green plant with many leaves in a white pot. Overlaid on this image is a flowchart template consisting of four horizontal rows of empty, rounded rectangular boxes with red borders. The boxes are connected by black arrows, indicating a flow from left to right. The first row has two boxes. The second and third rows each have three boxes. The fourth row has three boxes. The flow starts at the first box in the first row, goes to the second box in the first row, then down to the first box in the second row, then to the second and third boxes in the second row, then down to the first box in the third row, then to the second box in the third row, then down to the first box in the fourth row, and finally to the second and third boxes in the fourth row.
