

# Multiplication grouping

1. Let us make a group of 3 roses

Number of groups =       
Number of roses in each group =       
 $3+3 = \underline{\quad}$   
 $2 \times 3 = \underline{\quad}$

6      3  
2      6

2. Let us make a group of 2 chocolates

Number of groups =       
Number of chocolates in each group =       
 $2+2+2+2 = \underline{\quad}$   
 $4 \times 2 = \underline{\quad}$

8      4      8      2

3. Let us make a group of 5 apples

Number of groups =       
Number of apples in each group =       
 $5+5+5+5+5+5+5 = \underline{\quad}$   
 $7 \times 5 = \underline{\quad}$

35      5      7      35
