**READING. Read this text and circle T for true or F for false** **5x0.4 =2 marks**

For a person who lives in a small house a small pet is often very good company, especially a bird. Birds are very interesting pets, but you need to have them in a cage. They have nice colourful feathers and sing at different times of the day. If you have a parrot it can even learn to talk. Sometimes a bird is too noisy so another nice animal is the hamster. Hamsters are all nice and clean so you can take them out of their cages and play with them. Fish are also a type of pet for people without much space or time. They just need some food and their bowl or tank cleaning sometimes. And then, there are dogs. Many people believe they are excellent company and very good friends, too.

1. The text is about pets that people cannot have at home.
2. Birds are not an option, because they always make a lot of noise.
3. Hamsters are good for children to play with.
4. Fish are very easy pets to keep.
5. Some people prefer dogs because they can take them out with them.
