

LES PROPIETATS DE LES MULTIPLICACIONS

Relaciona les operacions amb les seves propietats

$$12 \times (3 \times 5) = (12 \times 3) \times 5$$

■ Propiedad del elemento neutro

$$24 \times 11 = 11 \times 24$$

■ Propiedad Distributiva

$$45 \times 0 = 0$$

■ Propiedad del elemento absorbente

$$2\,345 \times 1 = 2\,345$$

■ Propiedad Conmutativa

$$12 \times (3 + 7) = 12 \times 3 + 12 \times 7$$

■ Propiedad Asociativa

Aplica la propietat commutativa

$9 \times 4 = \square \times \square$		$9 \times 8 = \square \times \square$
		

Aplica la propietat assosiativa

$(2 \times 4) \times 5 = 2 \times (\square \times \square)$		$(3 \times 2) \times 9 = \square \times (\square \times \square)$
		

Aplica la propietat distributiva

- $3 \times (2 + 5) = \square \times \square + \square \times \square = \square + \square = \square$
- $2 \times (4 + 6) = \square \times \square + \square \times \square = \square + \square = \square$
- $2 \times (5 - 3) = \square \times \square - \square \times \square = \square - \square = \square$
- $3 \times (6 - 2) = \square \times \square - \square \times \square = \square - \square = \square$
