

1. This is Shandy, a robot that is in New York right now. She has to introduce herself to some friends. Write at least five sentences about what she would say (physical appearance, likes/dislikes, things she has, things she can do) Do not forget to use "I can", "I have got", "I like", "I don't like", "I am"...

2. Shandy will work in a special office since now on. Look at it and describe it using "there is" and "there are". Write at least three sentences of each.

3. Shandy is learning contractions in the school but she is at sixes and sevens.
Help her to match the correct pieces of the puzzle.

4. Shandy wants to go to an amusement park. Write two sentences saying the things she will do and two for the things she won't. Do not repeat the actions.

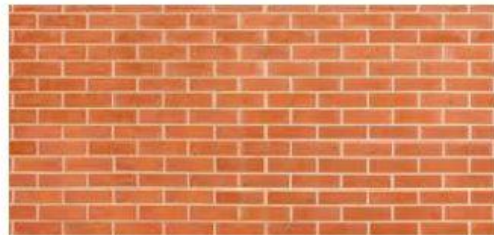

5. Shandy wants to build a house. To do that she has to compare between different things to finally decide what to buy. Use these adjectives to compare the objects. Write sentences like "the on the left is the..... on the right"

new	comfortable
funny	big beautiful

Wall

Kitchen

Sofa

Bedroom

Garden

6. Shandy is learning English at school but she has made some mistakes in a composition. Rewrite it in a proper way.

My name is Shandy. I prefer summer because it is hotter than winter. It is shinier as well. In winter it is rainier too. I have got two friends: Ken and Lisa. Lisa goes to the gym everyday so she is fitter than Ken. Ken is always eating fast food so he is fatter than Lisa. I think Maths is easier than Language. I am robot so I am very good at calculations. Bye, bye friends!
