

High School Level 3 – Exam 1

Name/Surname: _____ Class: _____ Total Mark _____

***Go to the listening section first**

Reading

Vincent van Gogh was a brilliant Dutch painter. He was born in 1853 in the Netherlands. Van Gogh had many different jobs when he was young. He worked in a bookshop, sold works of art and was a teacher. But in the end, he decided to study painting. In 1886, he went to Paris to live with his brother Theo. Theo was Van Gogh's best friend and always gave his brother money for food. In Paris, Van Gogh met many famous painters like Monet and Gauguin and learned about painting from them. Van Gogh painted day and night for many hours, so he didn't eat or sleep well enough. Because of this, he soon became sick. In 1889, he moved to the countryside in Arles to get well again. In 1890, he died at the age of 37. During his life, Van Gogh sold only one painting. But today his paintings are some of the most popular and expensive works of art in the world. In his short life, Van Gogh achieved great things and people continue to admire his paintings today. He painted a lot of master pieces like "Irises", "Café Terrace at Night" and "Sunflowers" but many critics say that "The Starry Night" is his most popular painting.

Read the text and answer the questions in FULL SENTENCES (2x5=10 pts)
