III. READ THE BIOGRAPHY AND MATCH THE COLUMNS

Luis Pasteur

Luis Pasteur was born in Dole, France, on December 27th, 1822. He discovered that germs and microbes cause diseases. He established methods of sterilization. He was the first person to develop and use vaccines that helped animals and people. He developed *pasteurización*. This is a technique that killed the microbes that contaminated food products but did not destroy the nutrients. He was an extraordinary and talented scientist. He died at the age of 73.
