

I'm basically a happy person with a happy family but there are things **I wish were** different. Physically speaking, **I wish I were** taller. From the point of personality **, I wish I didn' t talk** so much. Talking about family interaction and generation gap, I **wish my dad understood** me a little better. He' s too old fashioned. On another note, I am a singer so I **wish my boyfriend played** a musical instrument but he hasn' t got an ear for music.

**I wish I had studied** more. **If only I had asked** mom for help !!! Why did I spend so much time hanging out with Laura **? I wish I hadn´t joined** her when she invited me to go to the shopping mall. **I wish I had dedicated** that time doing homework. " Cynthia, you should be more responsible at school " Grandmother Berta told me. **I wish I had paid** attention to her. But, as from now, I' m going to work hard. I know I can get out of this serious
