

4 Read the paragraph.

Hello. I'm Frank Hardy, a zoologist. I'm studying on endangered and extinct animals. I believe we can spot the reasons of these extinctions, and we can protect the endangered ones. Human beings are responsible for most of the extinctions. They should now find a way to help the animals in wildlife. Men hunted wild animals for their skins, fur or teeth for years. They destroyed their habitats to make fields. They also polluted the environment. We should show respect to animals because we are sharing the same world. The Earth belongs to the human beings and to the animals together. A little love will change the world! Let's start taking care of all the animals tomorrow.

Now, write the reasons why some animals became extinct.

5 Read the sentences and write the names of the animals. Then, match them with the pictures. EAGLE SNAKE PENGUIN ELEPHANT

a.

b.

c.

d.

EAGLE
ELEPHANT
PENGUIN
SNAKE
