9. world	เวิลด์	โลก
10. including	อิบคลูดอิบ	ประกอบด้วย

While-reading

Read the passage carefully.

Lily is a genus of herbaceous flowering plants growing from bulbs, all with large prominent flowers. Lilies are a group of flowering plants that are important in culture and literature in much of the world.

Lilies are tall in height from 2-6 ft. (60-180 cm). The flowers are large and have a lot of colors including white, yellow, orange, pink, red and purple. The plants are late spring- or summer-flowering.

From December to February in the winter season, you will discover fields filled with gorgeous lilies color in Chiang Rai Flower Festival. It shows near the walking street in the town.

Post-reading

Read the passage again and decide if these statements are T (true) or F (false).

1. Lily is a genus of herbaceous flowering plants growing from bulbs. 
2. Lilies are tall in height from 2-6 ft. (60-180 cm). 
3. The flowers are very small and have only white color. 
4. In Chiang Rai, you will see lilies in the summer season. 
5. There is a Chiang Rai Flower Festival to show lilies.
