

MOCK EXAM #7 YS4

A) Read the story.

Hansel and Gretel were brother and sister. One day, their father left them in the forest because he didn't have money to give them food. Hansel and Gretel were poor and they were very hungry. In the forest, the children saw a house made of bread, popcorn, cookies and chocolate. It also had sugar windows!

"Look, Gretel! We can eat the house!" said Hansel.

"Oh! It's delicious! Let's get into the house!" said Gretel.

An old woman lived in the house and she invited them to come and eat all the sweets they wanted.

"Come with me, little children! I can give you delicious food!" said the woman. The two children got into the house, but the old woman was not a good person, she was a bad witch!
