

Make sure you type 1 number in each box!!!

(even the boxes on top of the problem)

[illegible]

The image shows four 4x4 grids illustrating the steps to solve a multiplication problem. Each grid has two empty boxes at the top for the answer.

- Grid 1:** The first row contains two empty boxes. The second row contains the numbers 7, 8, and 9. The third row contains an 'x' in the first column and a 2 in the fourth column. The bottom row contains four empty boxes.
- Grid 2:** The first row contains two empty boxes. The second row contains the numbers 4, 5, and 2. The third row contains an 'x' in the first column and an 8 in the fourth column. The bottom row contains four empty boxes.
- Grid 3:** The first row contains two empty boxes. The second row contains the numbers 5, 8, and 3. The third row contains an 'x' in the first column and a 5 in the fourth column. The bottom row contains four empty boxes.
- Grid 4:** The first row contains the numbers 1, 5, 7, and 8. The second row contains the numbers 6, 8, and 3. The third row contains an 'x' in the first column and a 7 in the fourth column. The bottom row contains four empty boxes.
