

REVIEW - JUST A JOB

A. Select the correct phrase to complete the career advice

If you've (1) *been unemployed / worked for a company* for a number of months, this advice might be useful for you. To help you get an interview, one of the most important things you can do is (2) *earn a good salary / write a good résumé*. There are lots of Web sites that can help you do this. It's also important to make sure you are (3) *applying for a job / having a career* that is right for the type of person you are. There's no point (4) *getting a full-time job / getting along with your colleagues* in an office if you want to spend a lot of your time outdoors. Also, if you work for a small family-run business, it's probably more important to (5) *get a part-time job / get along with your colleagues* than if you work for a large company.
