

Choose the correct answer from a, b, c and d:

Mum told my brother three stories which were (long-longer-longest-the longest) than I thought. To him, the (interesting-more interesting-most interesting-interesting than) one was about a dog that was lost in the forest. He also liked the story about the man who sold his car for a price that was as (cheap-cheaper-cheaper than-cheapest) as a motorbike. The third story was (difficult-more difficult-most difficult-more difficult than) to understand than the other two, so my brother slept before the end.
