

PERIMETER AND AREA WORKSHEET

side x side

$2(\text{length} + \text{breadth})$

length x breadth

4 side

1.Perimeter of rectangle	
2.Perimeter of square	
3.Area of rectangle	
4.Area of square	

FILL IN THE BLANKS

5)

Area = _____ square cm

Perimeter = _____ cm

6)

Area = _____ square cm

Perimeter = _____ cm

CHOOSE THE CORRECT OPTION

7. If each side of a square is doubled, then its area will increase by :-

- (i) no increase (ii) two times (iii) three times (iv) four times

8. find area of a circle of radius 30 cm .

- (i) 2826 cm square (ii) 625 cm square
(iii) 2596 cm square (iv) 1846 cm square
