

READING

ENGLISH 

1. Read the text.

Bears

Bears are mammals. They have got fur and claws. They have got long snouts or noses. Their babies are called cubs. When it's very cold they sleep all winter. It is called hibernating. There are many types of bears.

Some bears live in warm places, like Sun Bears. They are black and brown. Their favourite food are coconuts.

Some bears live in cold places like Polar bears. They are white. They have got three eyelids and their tongue is blue.

Some bears live in China, like Panda bears. They are black and white. They have got almost 6 fingers. They often eat bamboo.

Some bears live in mountains and they are brown or black. They live in Europe, Asia or North America. They eat plants and animals. They love salmon and berries.
