

Watch the following video about Cell Structure and Function.
Then match the Cell Organelle and the word bank phrase it
would “say” to other cell organelles.

<https://youtu.be/NkC9Aijf7gl>

WORD BANK

give the cell energy
hand out free proteins
run down the hallways for help
do as I say, I’m in charge

1. What would the Nucleus say to the rest of the cell organelles?
2. The Ribosome would say, “I can (?) because it makes the cell healthy and I just made some new ones”
3. Mitochondria says, “Turn on the switch so I can do my job and (?)”
4. ER says, “When there is an EMERGENCY, remember to use me and (?)”
