

# Surface area formula

| Figure            |                                                                                     |
|-------------------|-------------------------------------------------------------------------------------|
| Cube              |    |
| Rectangular prism |    |
| Cylinder          |    |
| Cone              |  |
| Sphere            |  |

$$4\pi r^2$$

$$6a^2$$

$$\pi r(l + r)$$

$$2(lw + wh + hl)$$

$$2\pi r(h + r)$$
