

A fantastic day at the beach!

Hello, my name is Luka and I live in a town in Ireland. My town is near the seaside. Today is my birthday, and my family and some friends are having a party at the beach. My mother invited them because we go to the same school and our houses are very near one to each other. We are neighbours.

Today, the weather is fantastic, the sun is shining and it is very hot. This kind of weather is normal for a day in August. When we go to the beach, there are always a lot of people, but today there are less people here, because there is an important football match and many fans are at the stadium. Lucky for us!

Here, you can rent small boats, and you can go fishing, playing on the water or diving near the rocks. This morning we rented one of them and we were fishing. We were lucky and we got three fish in a half of an hour. Later some boys came to play to these rocks and we didn't catch anything else.

My friend Peter and his sister are playing with a very big beach ball into the water. My oldest brother Marcus is swimming in the ocean, my sister Catherine is sitting on a towel under an umbrella. She is listening to music. Next to a big tree, there is a little boy making a sandcastle with a spade and a bucket. His mother is reading a book and speaking with my mother. They live near our house too.

At midday we are going to prepare a fantastic picnic for everyone. There are some sandwiches, cheese, ham, sausages, hamburgers and a lot of fruit. There are also many bottles of cold drinks. We can't forget a very big birthday cake with eleven candles.

When we finish all food, we'll light the candles, my family and friends will sing 'Happy Birthday!' and we'll eat the cake. After the meal, adults will sunbathe and children will play for a long time in the water.

At the end of the day, we'll turn back home and we will watch my favourite film: 'Harry Potter and the Philosopher's Stone'.
