Note Values

These are the various different note lengths which you need to understand.

NOTE NAME	NOTE SYMBOL	Note Length
Semibreve	o	4 beats
Minim	J	2 beats
Crotchet	J	r beat
Quaver	,	16 beat

If we have two quavers next to one another -

We take the tail of each one and tie it together

We call this a beamed quaver which altogether adds up to 1 beat.

(Even though they are tied together, each note is still $\frac{1}{2}$ a beat).
