9th Grade Level C Unit 1

READING

Life in the City

My name is Jill and I come from New York. I live in an apartment with my mother, father and sister. I usually walk to school in the morning, but when it rains I go to school on the subway. My mother is a teacher in my school so we go to school together every morning.

I go to a very big school. There are more than 5,000 students in my school. We start school at 8:00. I study math, English, Spanish, science and computers. My favorite class is Spanish. I study Spanish very hard because I want to visit my family in Spain this summer.

We eat lunch at school. I usually bring a sandwich from home because I don't like the school lunches. After school I play basketball. I also go to Drama Club once a week.

I come home from school at 4:00. I like to watch TV at night, but sometimes I have to do homework. I like the weekend. I sleep late and go to the park.

Answer the questions.

1. Complete the sentences. (5 x 5)
   a. Jill comes from ..... .
   b. Her favorite class is ..... .
