-Open skills book page 27. Match the text with the photos.

Then put the report in the correct order.

1 A report on recycling paper.
Read and match the text with the photographs. Then put the report in the correct order. Work in your group and write your answers in your exercise book.

Here is my report about how to recycle paper. Help me put it in order.

1 First, the old pieces of paper were torn into small pieces and put in a bucket.

2 Then, some of the water and bleach mixture was added to the paper until it was covered. Then, it was left to soak for an hour.

3 Next, two litres of warm water were mixed with one tablespoon of bleach.

4 After blending, the mixture was pushed through a sieve to get rid of the water.

5 After that, the paper mixture was put in a blender with some more of the water and bleach mixture. This was blended to make a thick mixture.

6 Finally, the thick mixture was put onto a thick layer of newspaper and was rolled flat.
