

Expand the following numbers then find the sum.

1) $65 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$
 $+34 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

 $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

2) $42 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$
 $+17 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

 $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

3) $47 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$
 $+51 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

 $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

4) $35 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$
 $+82 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

 $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

5) $76 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$
 $+53 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$

 $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$
