

Skip count on the number line to solve the multiplication problems

$4 \times 4 = \underline{\quad}$

$6 \times 2 = \underline{\quad}$

$2 \times 8 = \underline{\quad}$

$4 \times 2 = \underline{\quad}$

$3 \times 5 = \underline{\quad}$

$5 \times 4 = \underline{\quad}$

$6 \times 3 = \underline{\quad}$

$4 \times 3 = \underline{\quad}$

Skip count on the number line to solve the multiplication problems

$2 \times 3 = \underline{\quad}$

$4 \times 5 = \underline{\quad}$

$3 \times 8 = \underline{\quad}$

$3 \times 4 = \underline{\quad}$

$2 \times 6 = \underline{\quad}$

$7 \times 2 = \underline{\quad}$

$10 \times 2 = \underline{\quad}$

$2 \times 4 = \underline{\quad}$
