1

The Arabian Oryx

by Salima and Nada

2

Body parts

3

Where it lives

In the desert in central Oman. Oryx live together in groups or herds.

4

What it looks like

Adults are white but baby oryx are born brown. Both male and female oryx have two long straight horns between 50 and 75 cm long.

5

What it eats

Leaves, grass, roots and shoots.

6

Other interesting facts

Oryx can smell rain from very far away. After it rains, they travel across the desert to look for fresh grass.

2 Find and match.

Look at the different parts of Salima and Nada's information page in Activity 1.
Find the number on the page which matches each of the sections below.

- labels for body parts
- information boxes
- title of project
- names of authors

3 Look and match.

Match the name of each animal in the box below with the correct picture. Write the letters and numbers into your exercise book.

- 1 scorpion 2 goat 3 dolphin 4 fox
5 Arabian camel 6 eagle 7 hedgehog 8 Arabian leopard
