

Everyday activities

Look at all *activities marked in red* in the text and match them with the pictures.

In the morning I wake up at 6am, get up and get dressed. First, I have breakfast with my family and then I feed the cat. After that I go to school. School is great! PE and maths are my favourite subjects. In the PE lessons I can play football or throw and catch balls. Maths is great too, but we sit quietly in the classroom. This is not easy for me. After school I go home at 3 o'clock in the afternoon. First, I make a cup of tea, eat lunch and then I do my homework. My dad often helps me. In the evening I have dinner with my family and then we often watch TV or play games. Before I go to bed, I text my friends and ask them about their day. On school days I fall asleep early. I usually sleep at 9pm. On Saturdays I often see my grandparents. I always read the newspaper with my grandpa. In the afternoon my grandpa and I sometimes go for a walk. On Sundays I meet my friends. In summer when it's warm we swim, in autumn and winter we read lots of books.
