

Il perimetro

- Collega con una linea ogni poligono alla giusta formula per il calcolo del suo perimetro.

$$P = l \times 4$$

$$P = l_1 + l_2 + l_3$$

$$P = (b + h) \times 2$$

$$P = l \times 5$$

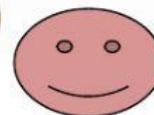

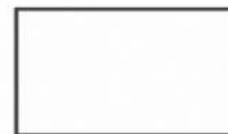

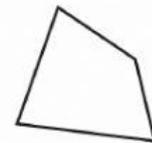

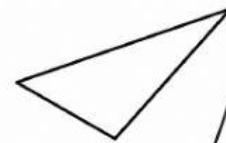

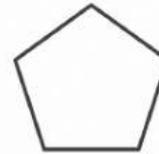

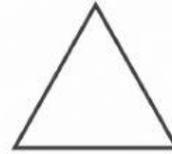

$$P = l_1 + l_2 + l_3 + l_4$$

$$P = (l \times 2) + b$$

$$P = l \times 3$$

$$P = B + b + l_1 + l_2$$

$$P = l \times 6$$

L'area

- Collega con una linea ogni poligono alla giusta formula per il calcolo della sua area.

$$A = (D \times d) : 2$$

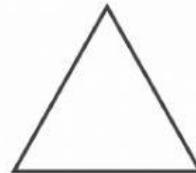

$$A = b \times h$$

$$A = (b \times h) : 2$$

$$A = l \times l$$

$$A = b \times h$$

$$A = [(B + b) \times h] : 2$$
