Lesson : Creating plots in Python

Complete the code :

matplotlib - plt - DataFrame - plot - show

```
import _____.pyplot as _____
```

```
import pandas as pd
```

```
tree_size = pd._____ ([[35, 40, 53, 53,  
59, 62]])
```

```
plt._____ (tree_size.loc[0,:])
```

```
plt._____ ()
```
