

Mathematics

Grade 8

January 21, 2021

Topic: Reciprocals

Subtopic: Identifying and Writing Reciprocals of Whole Numbers and Fractions

Instructions: Write **ONLY** the reciprocal for the **whole numbers** below. One has been done for you.

Example:

$5 = \frac{1}{5} \times \frac{5}{1}$

1. $8 =$

2. $6 =$

3. $9 =$

4. $7 =$

5. $3 =$

Instructions: Write the reciprocal for the **fractions** below. One has been done for you.

Example:

$$\frac{1}{5} \times \frac{1}{5}$$

1. $\frac{1}{5} \times$

2. $\frac{2}{3} \times$

3. $\frac{1}{8} \times$

4. $\frac{3}{4} \times$

5. $\frac{3}{6} \times$
