

Name: _____ Date: _____

Mathematics: Even and Odd Numbers

Even	Odd
0 2 4	1 3 5
6 8	7 9

Remember: Even numbers end with 0,2,4,6,8 in the ones place.

Example: Tens Ones
 5 | **2**

52 is an even number because of the 2 in the ones place.

Remember: Odd numbers are 1,3,5,7,9 in the ones place.

Example: Tens Ones
 1 | **3**

13 is an odd number because of the 3 in the ones place.

Directions: Drag and drop the even and odd numbers into the correct column.

Even		Odd	
7	19	36	6
23	22	5	28
