Benefits of Chewing Gum

For those who (0) loves chewing gum, here are some good news. Scientists (1) has discovered that chewing plain gum can help improve your memory. In an experiment, people's ability (2) for remember words improved by more than a third if they chew on a stick of gum. On top of that, chewing gums that (3) contains Xylitol can help to prevent cavities. If (4) your feel tired and lack energy, you could try a gum that (5) are packed with four types of vitamins B. They help to release energy from food. However, do not (6) overdoing it. Too much of it can produce a 'laxative effect'. Finally, if you suffer from travel sickness, ginger gum may (7) answers your problem. Though slightly more expensive, it (8) helped to calm and support your digestive system. It is supposed to have the same effect as a ginger biscuit.
