Reading

2 Read the article about being clean around the house and answer the following questions.

1 Name 4 things you can do to keep your home clean.

2 Suggest a title for this article.

3 What other things can you suggest to keep your home clean?

Writing

3 Write a paragraph about how you help to keep your home clean. Include answers to the questions above.

Most people like to keep their homes clean, but there are many places that we don't think about and so they become full of dirt and bacteria.

Research shows that the deep cuts in chopping boards are often a home for bacteria because people don't clean them properly. Bacteria often move around our homes when we touch things, so phones, tablets and computer keyboards often have a lot of bacteria on them, too. However, bacteria really love warm, wet places and so your kitchen sponge probably has more bacteria than anything else in your home.

Experts say that it's most important to wash our hands regularly. If we touch animals, we should wash our hands, and we need to use a tissue when we sneeze to stop the bacteria spreading in the air. They suggest using plastic chopping boards and giving them an extra clean once a week. We should replace kitchen sponges every two weeks, and we can buy special cleaners for phones, tablets and computers.

Subject: Help!

Hi Amir,

How are you? I hope you had a good weekend at the beach. Samy told me about the argument you had with Hany. I think it would be a good idea to say that you are sorry for getting angry. Stay calm and explain that he should ask you before he borrows your things. I'm sure he will realise that he made a mistake and he will say sorry too. Why don't you talk to him tomorrow? I suggest talking to him in the morning because he is usually busy on Sunday afternoons.

Now I hope you can help me with my problem. Do you remember that I was planning to clean my house at the weekend? Well, I was busy and I forgot about it! 😞 The problem is that my parents are coming home tomorrow and the house is really dirty. There's dust everywhere and there's a strange smell in the kitchen!

What should I do? Help!

Regards,

Maher
