

## 2 Conclusion / Kesimpulan:

### Exercise / Latihan

Determine the type of particles in the following substances:

Tentukan jenis zarah bagi setiap bahan berikut:

| Substances<br>Bahan                                                                | Type of particle<br>Jenis zarah | Substances<br>Bahan                                                      | Type of particle<br>Jenis zarah | Substances<br>Bahan                                                                                       | Type of particle<br>Jenis zarah |
|------------------------------------------------------------------------------------|---------------------------------|--------------------------------------------------------------------------|---------------------------------|-----------------------------------------------------------------------------------------------------------|---------------------------------|
| Hydrogen gas (H <sub>2</sub> )<br>Gas hidrogen (H <sub>2</sub> )                   |                                 | Sulphur dioxide (SO <sub>2</sub> )<br>Sulfur dioksida (SO <sub>2</sub> ) |                                 | Tetrachloromethane (CCl <sub>4</sub> )<br>Tetraklorometana (CCl <sub>4</sub> )                            |                                 |
