Musical Success Stories

Cathy

When Cathy was four years old, her father gave her a toy keyboard. She taught herself how to play it and could play many songs by the time she was six. When she was eight years old, her parents bought her a piano and she now plays in a youth orchestra in Bristol. She is going on a European tour and visiting seven countries with the orchestra later this year.

Tim

Tim loves singing. Last year he started his own band with friends from school. Tim is the lead singer and is also learning the guitar. Tim's band plays at school concerts and at the local social club. This year they even played at a music festival. Tim's band plays rock music and now they want to write music and play their own songs. Next month, he is going to enter a song writing competition!

Sylvia

Sylvia is a D.J. This means she uses lots of different music and on the computer she makes new songs. Sometimes she even records herself playing the guitar and piano and adds them to the music tracks. She plays her music at different events and sometimes performs at the local shopping centre. Her music is a mixture of pop and techno. She says she loves it when people dance to her music, but she really hates dancing!
