When Jack was a child, he liked sports and he played soccer and tennis. He also enjoyed playing basketball. At the age of 15 he moved to Spain where he has lived for the last 10 years.

He studied arts and improved his Spanish language.

His family returned to the United States and called him every month. Last year, he amazed us when he phoned on Christmas time. We were not used to it. I followed his work and I always loved his paintings.
