

STORY SEQUENCING (sequencing means arranging the events in the order of how it took place)

Gopi and the 'Fireflies'

He enjoyed looking at them.

He wore his black woolen jumper and went out.

He saw many little lights outside his window

Gopi brought a glass jar and a few flew into the jar.

He ran around jumping up, and down, to catch one light.

Then he gently let them out and let them fly away.

Gopi had gone to visit grandma.
