

NAME : \_\_\_\_\_

**Answer the questions.**

1. When ball X is released, it will \_\_\_\_\_.  
Apabila bola X dilepaskan, bola X \_\_\_\_\_.
2. When ball Y dilambung ke atas, bola Y \_\_\_\_\_.  
Apabila bola Y dilambung ke atas, bola Y \_\_\_\_\_.
3. Based on the observations on ball X and Y, all object are pulled towards \_\_\_\_\_ due to \_\_\_\_\_.  
Berdasarkan pemerhatian pada bola X dan Y, semua objek ditarik ke arah \_\_\_\_\_ kerana \_\_\_\_\_.

|-----------------------------------|---------------------------------------------------------|-------------------------|
| The centre of Earth<br>Pusat bumi | gravitational pull on Earth<br>tarikan graviti di Bumi. | Collide /<br>berlanggar |
| Force / daya                      | Weight / berat                                          | Gravity / graviti       |

1. Gravity is a \_\_\_\_\_.  
Graviti merupakan satu \_\_\_\_\_.
2. The force that attracts all objects to the center of the earth is known as \_\_\_\_\_.  
Daya yang menarik semua objek ke Pusat Bumi dikenali sebagai \_\_\_\_\_.
3. All the objects around us are pulled towards \_\_\_\_\_.  
Semua objek ditarik ke arah \_\_\_\_\_.
4. Gravity or gravitas in Latin means \_\_\_\_\_.  
Graviti atau gravitas dalam bahasa Latin bermaksud \_\_\_\_\_.
5. Without gravity, humans would \_\_\_\_\_ with each other  
Tanpa graviti, semua manusia akan \_\_\_\_\_ antara satu sama lain.
6. All objects on Earth remain in their positions because of the presence of \_\_\_\_\_.  
Semua objek di Bumi tetap berada dalam kedudukannya kerana adanya \_\_\_\_\_.
