

Comprehension -Sequencing events

Sequencing is carefully putting things in order from first to last so that they make sense.

A recipe for a meal is a sequence. To make the meal properly we have to follow the recipe steps in the correct order.

Sequencing: Recipe

Think about the steps needed to make a peanut butter and jelly sandwich – would you eat the sandwich BEFORE it was made? Would you cut the bread BEFORE you spread the peanut butter? Look at the picture recipe then describe the steps in the correct order of events.

1.		Step #1:
2.		Step #2:
3.		Step #3:
4.		Step #4:
5.		Step #5:
