

ADDIZIONI VELOCI

CONSIGLIO

Somma unità con unità, decine con decine e centinaia con centinaia.

1 Calcola in riga. Segui l'esempio.

$$\begin{array}{c} \text{23} + \text{35} = \text{58} \\ \text{20} + \text{30} = \text{50} \\ \text{3} + \text{5} = \text{8} \end{array}$$

$$53 + 24 = \dots\dots\dots$$

$$42 + 13 = \dots\dots\dots$$

$$56 + 232 = \dots\dots\dots$$

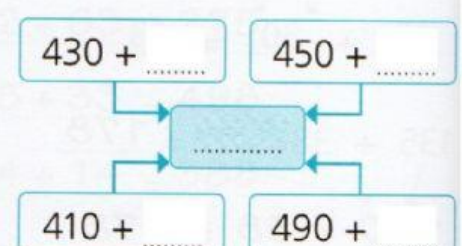

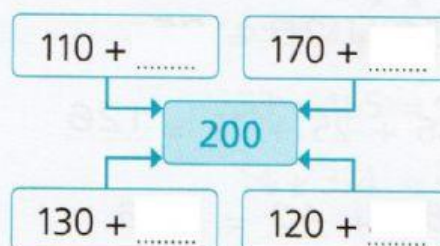

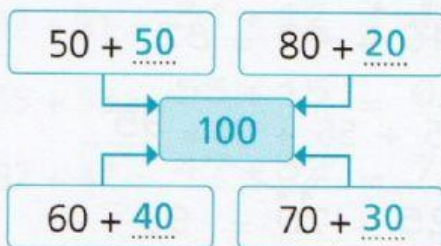

$$144 + 34 = \dots\dots\dots$$

$$601 + 45 = \dots\dots\dots$$

$$462 + 234 = \dots\dots\dots$$

$$341 + 532 = \dots\dots\dots$$

2 Completa per arrivare al centinaio successivo come nell'esempio.

3 Completa come nell'esempio.

CONSIGLIO

Per aggiungere 10, 20, 30... a un qualsiasi numero aggiungi 1, 2, 3... alle decine.

4 Scomponi gli addendi e calcola. Segui l'esempio.

$$\begin{array}{rcl} 35 & + & 52 = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ 30 + 5 & + & 50 + 2 = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ 80 & + & 7 = 87 \end{array}$$

$$\begin{array}{rcl} 114 & + & 156 = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ 100 + \dots & + & 150 + \dots = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ \dots & + & \dots = \end{array}$$

$$\begin{array}{rcl} 42 & + & 27 = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ \dots + \dots & + & \dots + \dots = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ \dots & + & \dots = \end{array}$$

$$\begin{array}{rcl} 134 & + & 415 = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ \dots + \dots & + & \dots + \dots = \\ \swarrow \quad \searrow & & \swarrow \quad \searrow \\ \dots & + & \dots = \end{array}$$
