

AMONG 4TH GRADERS REVIEW GAME

Among 4th Graders is a game to review before exams in class. Five spaceships (teams) will compete with each other and the teacher, trying to finish all the tasks (answering the questions correctly) and impostors will be among them.

Before the game begins, the teacher will give one Amonguito to each student, and they will have to look behind it. If it is white, the student is a crewmate. If it has a red "I" written on it, the student who gets it will be an impostor. His or her secret mission will be to convince the team members to answer the questions incorrectly.

Once the students have checked their Amonguito, the teacher will start asking questions group by group. Before answering, all the team members have to agree to an answer: If it is incorrect, the group loses a crewmate and the next group will have a chance to answer it. If it is correct, the game continues and the teacher asks a new question. The game finishes when the class has answered all the questions.

Who wins? The spaceship with more crewmates at the end of the game will be the winner. But if one spaceship has lost all the crewmates, the impostors will also win. Are you ready to try it??

1. Answer the questions about the text:

- What is *Among 4th Graders*? _____
- How many teams can play it? _____
- What will the teacher give? _____
- What is the mission of the impostors? _____
- _____
