

#Program to check if it is morning time

```
hour = input("Please enter the hour of the day(24-hour clock):")
```

```
hour = int(hour)
```

```
if hour < 12:
```

```
    print("The time ", hour, "is am")
```

```
else:
```

```
    print("The time", hour, "is pm")
```

What are your results? If the hour is

18

Your answer:

5

Your answer:

 **LIVEWORKSHEETS**
