I should have left when you did last night. I **(a)** \_\_\_\_\_ so late if I had. First I missed the last bus. I would have caught it if I **(b)** \_\_\_\_\_. Anyway, I didn't, so I tried to get a taxi. But because of the concert, it was so busy, and I couldn't get one. I finally got home, soaking wet, and realised Ben had taken my keys by accident. If it had been earlier, I **(e)** \_\_\_\_\_ him, but it was 3 am, so I knocked on the door. If my housemate **(f)** \_\_\_\_\_, it would have been terrible!

Hope you had more luck getting back!

### Study Creative Arts with Northmoor College

A \_\_\_\_\_

Are you a creative person? Would you enjoy experimenting with different types of media? Then read on.

With access to great resources and the flexibility to communicate through a wide variety of artistic styles, you can gain a degree in creative arts. The different units of the course will offer you the chance to choose from graphic design, music composition, screenplay writing, theatre lighting, to name but a few.

B \_\_\_\_\_

Already have a job? Well, don't worry, our course doesn't insist on you giving this up although many of our past students will recommend you limit this to part-time in order to fully enjoy the course. And in this case, it may be wise to complete it in five years rather than the usual three.

C \_\_\_\_\_

'Movies Through the Ages' explores the history of screenplay techniques, character development and plot organisation as well as various film genres from fast-moving action to clichéd rom-coms. Whether this is your thing or not, all participants are required to do this section of the course to give them the knowledge and background of everything else they'll do.

Another is 'Making Music'. Again, largely based on theory, this will provide you with the skills from which to develop your own creative ideas.

D \_\_\_\_\_

Once you have completed the first year, you'll be free to choose where you want your studies to take you. Would you like to go in the direction of making your own musical masterpiece, writing your own Hollywood blockbuster or forming your own indie band? Or, new this year, we can offer a photographic element, thanks to our newly employed digital image tutor.

E \_\_\_\_\_

If you think you may qualify for a discount due to your financial situation, please get in touch as we are able to offer a limited number of places to potential students who we feel may have a real talent for a certain field of study.

F \_\_\_\_\_

Hear what our past students have to say about everything if you're still undecided:

Dan Chung, 26: graduated in 2019

I was hooked from the interview. I met Dr Jones, who asked me what kind of music I liked. I thought she probably wouldn't have heard of this small punk band from the 70s, but I was surprised when she told me it was her favourite. This course has the ability to take what you love and make you love it even more. Now, I'm working for a small record producer and I couldn't be happier.

Sue Colgan, 36: graduated in 2018

Having had my kids at a young age, I didn't want to go down the predictable road of doing a job just for money. The fact I could do this and work gave me the opportunity I desperately needed. I'd always wanted to write my own novel and when I started writing, the tutors advised me to develop a character here or change the plot there. But above all the practical help, they gave me the confidence I'd been missing. Two years on, and I'm almost ready to send it to various publishers. It's a real achievement.
