The Jessie's makeover

Complete the gaps using have, have not, or had something done

I am forty-five years old. Dived between my family and my career, I neglected to look after myself along the way. One year ago, I took a long, hard look in the mirror and realized that my hairstyle and clothes were tired and outdated. I needed to make some changes.

First , I (1)_____had my hair cut and colored . I hadn't been to a hairdresser in years . The results were absolutely amazing - I looked years younger, as if I (2)_____had a facelift. Next, I (3)_____ my colors done. This is a consultation which tells you the best colors and combinations for your clothes and makeup . Then I went, over several weekends and trips to many different stores , to build up a decent wardrobe to get the best look possible , I (4)_____ some of the clothes adjusted, shortened to suit me better . To complete the process , I (5) _____my teeth whitened over a three month period so I go to the dentist and the doctor, my doctor also recommended that I (6)_____my skin treated with a chemical product. (7) After it I went down to the malls and I_____my makeup done by a professional.

Before the makeover, I was invisible. I hadn't really invested time and money to look good . Now , I look pretty and elegant, I feel energetic and confident . Who would guess that a simple makeover could do that.
