LIVEWORKSHEETS

Scientists and doctors say that about 34 million Americans are too fat. Why is this? One cause is the kind of food Americans eat. Many of them like 'fast food'. These foods (such as hamburgers and ice cream) often have fattening things in **them**. Another cause is the way Americans eat. They often eat little snacks between regular meals. These extra foods add extra fat on the body. A third cause is not enough exercise. Americans like driving everywhere, instead of walking. They often have machines to do a lot of work. Some Americans are also too heavy because of health problems. But for most of those 34 million Americans, the problem is the American lifestyle.

16. What is the topic of the paragraph above?

A. What Americans eat
B. American fast food
C. Health problems in America
D. The American lifestyle
E. Why many Americans are too fat

17. According to the paragraph, what does NOT cause Americans too fat?

A. Bad food intake
B. Extra foods
