

DESARMO Y SUMO

$$23 + 36 =$$

1 PASO- DESARMO

20 + 3 30 + 6

2 PASO- GRUPO DIECES Y UNOS

$$20 + 30 + 3 + 6$$

3 PASO- SUMO

$$50 + 9 = 59$$

$$51 + 23 =$$

A diagram showing the addition of two yellow squares and two purple squares. It consists of four squares arranged horizontally, separated by plus signs. The first two squares are yellow, and the last two are purple.

$42 + 36 =$

A diagram showing four squares arranged horizontally. The first two squares are yellow, and the last two are purple. They are connected by plus signs, representing the equation: Yellow + Yellow + Purple + Purple = 10.

$$25 + 31 =$$

A diagram showing two yellow squares followed by a plus sign, then two purple squares followed by another plus sign. This represents the equation: 2 yellow squares + 2 purple squares = 4 squares.

$71 + 18 =$

A diagram showing the addition of two yellow squares and two purple squares. It consists of two yellow squares followed by a red plus sign, then two purple squares followed by another red plus sign.
