

● Знайди число за його дробом.

$$56 - \frac{7}{8}$$

$$56 : 7 \cdot 8 = \square$$

$$100 - \frac{10}{33}$$

$$\square : \square \cdot \square = \square$$

$$64 - \frac{8}{9}$$

$$64 : \square \cdot \square = \square$$

$$450 - \frac{5}{6}$$

$$\square : \square \cdot \square = \square$$

$$36 - \frac{4}{8}$$

$$36 : \square \cdot \square = \square$$

$$630 - \frac{7}{8}$$

$$\square : \square \cdot \square = \square$$

$$200 - \frac{2}{5}$$

$$200 : \square \cdot \square = \square$$

$$480 - \frac{6}{7}$$

$$\square : \square \cdot \square = \square$$

$$160 - \frac{4}{5}$$

$$160 : \square \cdot \square = \square$$

$$560 - \frac{7}{9}$$

$$\square : \square \cdot \square = \square$$
