"Monster House" is a scary and exciting film about a **monster** that lives in a house. The movie starts with **three kids**, DJ, Chowder and Jenny, who are curious about the **creepy** old house across the street. They notice **strange things happening** around the house and decide to investigate. They discover that the house is **alive** and it eats everything that comes near it! The kids go on an adventure to stop the monster house before it's too late. The monster is very scary and the house is **huge**!

I think this film is great for anyone who loves monsters and horror stories. My favourite character is Jenny 

# Post Reading activities

Try to do these activities without looking at the text.

1. Write true or false next to each sentence. Check the ones which are false:

- "Monster House" is a romantic comedy film.
- The house across the street is not creepy.
- The kids don't notice anything strange happening around the house.
- The house is not alive.
- The house in the film is small.

2. Match these words with the correct pictures:

Alive- Creepy - Huge - Exciting - Notice (v) - Monster
