Virtual learning

Pilar is learning Chinese. But she isn't studying it at school. She has lessons with a virtual teacher at home. We asked her some questions.

Is your virtual teacher a real person?
Yes, of course. Her name is Kim and she lives in China. She's called a virtual teacher because she teaches me online. I download activities from a website. Then I email my work to Kim and she checks it.

Can you talk to each other?
Yes, we use a video chat tool. We have conversation classes and I ask her questions.

Where does Kim work?
She works at home, in a café, or even on holiday! She just needs a computer and the internet.

Do you like virtual learning?
Yes, it's fun. I live in Spain, but I have lessons in China!
